Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE _____ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of the amendment filed 07/29/2009.

The rejection of claims 14, 17-19, 21-24, 27, 28, 34-37 and 39-41 under the judicially created doctrine of obviousness-type double patenting over copending 12/021,546 (US'546) is maintained in this action.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 14, 19, 28 and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pacetti et al (US Patent No. 7,056,591).

Pacetti et al discloses a polymer coating for a medical device (see Abstract). Polymers used for the coating are listed at col. 7, lines 65-67; col. 3, lines 1-32. Bioactives are listed at col. 9, lines 8-67. Pemirolast is found at col. 9, line 57. Therefore those of ordinary skill would have therefore found it well within their skill to coat a medical device with the claimed polymers used to deliver Pemirolast, with a reasonable expectation of anti-allergic results. The instant invention would have therefore been obvious to the of ordinary skill in the art at the time of invention given the teachings of US'591 to form a polymer coating comprising Pemirolast.

Response to Arguments

Applicant's arguments filed 07/28/2009 have been fully considered but they are not persuasive.

Applicant argues that since this is the last rejection, the application should proceed to allowance. However, this is no longer the only rejection in the application. However, as noted above, there is now a new art rejection in the application.

Conclusion

No claims are allowable.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos A. Azpuru whose telephone number is (571) 272-0588. The examiner can normally be reached on Tu-Fri, 6:30 am - 5:00 pm.
